

A New Generation of Leaders:

Focused on Getting Things Done.

Morgan's **PRIORITIES:**

An ALL of The Above Energy Strategy:

Our investments in solar kept the grid running during the hottest weeks in the summer.

Wind energy is creating jobs in South Texas, and natural gas is still what fuels our power plants.

In South Texas, we're at the center of all of it.

Stand by Our Teachers:

Too many teachers are facing burnout and leaving the classroom. They had our backs in the pandemic, now it's our turn to have theirs: raise teacher pay, ensure safety in our schools, and support them with counselors to deal with troubled kids early.

Expand Medicaid & Lower HealthCare Costs:

In South Texas we have the highest rate of uninsured families. Medicaid expansion, will bring federal dollars, cover tens of thousands of working families and help keep costs under control.
