

We're Here When **YOU NEED US MOST**

EACH OF OUR SIX CONVENIENTLY LOCATED FREESTANDING EMERGENCY DEPARTMENTS (FEDS) ARE READY TO PROVIDE CARE FOR A WIDE RANGE OF MEDICAL EMERGENCIES.

While you can't plan for the unexpected, you can take comfort in knowing that our Freestanding Emergency Departments – key components of the **South Texas Health System® Trauma & Critical Care Institute** – are ready to provide the care you need, when and where you need it most.

All six have received Chest Pain Management certification and Acute Stroke Ready Hospital certification from The Joint Commission.

What's more, each location is staffed with medical personnel and equipped with diagnostic technology similar to what you would find in our larger facility emergency rooms, making them capable of providing care typically beyond the scope of most urgent care centers or night clinics.

**Our Freestanding Emergency Departments are located at:
Alamo • McColl • Mission • Monte Cristo • Ware Rd. • Weslaco**
