

WestWind Homes Coming to San Juan

Award winning local builder WestWind Homes announces new subdivision in San Juan, Texas. With exciting new elevations and design, WestWind Homes offers flexible floorplans featuring

3-5 bedroom options, 2-3.5 restrooms with a 2 car garage and the ability to modify their floorplans.

With over 100 lots and homes starting at \$230,000 located along south Stewart Rd will bring more growth to the upcoming city of San Juan.

“Our homes are built by Certified Construction Managers and our floorplans are Engineered Certified by a separate 3rd party to ensure the quality and performance of each home and give our customer the peace of mind

knowing their home is built for their life. And by providing flexible floorplans in all of our different plans and 4 architectural styles gives customers the ability to personalize and make it their own.” Alonso Chavez, WestWind Homes’ Sales Director, said in the release. “Also, our warranty and customer service is something our customers value because we provide a 30 day inspection after closing and our 24hr customer care concierge is available to them 24/7.”

Leonardo Cavazos, WestWind Homes Investment Advisor added “Also, knowing that we help our customers build their credit to make that dream of owning a home a possibility is important to me and our company to give back to our community. We are looking forward to help many families build their American dream in the beautiful city of San Juan.”

Since 2008 WestWind Homes has been operating in the Rio Grande Valley, bringing their award-winning ways from Laredo to McAllen, Mission, Edinburg, Hidalgo and now San Juan with plans on building more vibrant communities throughout the upper valley.
