Public Meetings for the Development of the Cameron County Parks Master Plan

The Cameron County Parks & Recreation Department is developing a County Parks Master Plan and we invite residents and visitors to share their ideas. This plan will guide future park development and recreation programs. Cameron County Parks & Recreation has scheduled five public meetings to be held throughout Cameron County. We are asking residents to provide input on parks and recreation improvements such as playgrounds, trails, picnic areas, nature areas, educational opportunities, beach access, fishing, boating, camping and other amenities that are needed and wanted. Your input and ideas are vital during this planning stage and will be used to develop and prioritize park projects and recreational activities for the next five to ten years. A well-developed Parks Master Plan will allow Cameron County to provide the greatest opportunities, apply for grant funds for park improvements and new park development, and operate the park system in the public's best interest.

Community involvement is vitally important during this planning process. Public input will help us better understand the recreational needs of each community. We ask you to please join us and to participate at one of these meetings. Interested residents and visitors may also visit the Cameron County Parks and Recreation website at www.cameroncountytexas.gov/parks-home between April 2 and April 24, 2024 to take a public input survey on recreational needs and park use in Cameron County. For additional information, please contact the Parks Administration Office at 956-761-3701.
