

Maxim Healthcare Services - “How to Choose a Homecare Company”

There is a lot to consider while choosing a company to provide care in your home. This is especially true for individuals who became ill from working at a Nuclear Energy site like the Portsmouth Gaseous Diffusion Plant. As a healthcare provider for the Department of Energy, Maxim Healthcare Services has vast experience caring for beneficiaries of the U.S. Department of Labor’s Office of Workers’ Compensation Programs (OWCP).

Join us for an educational session to learn about Maxim’s services and how you can choose the right home healthcare company for your needs. We’ll have guest speakers including Hugh Stephens, from Stephens and Stephens, LLP, Attorneys at Law, to explain the claims filing process through the Division of Energy Employees Occupational Illness Compensation (DEEOIC).

As a national provider of a comprehensive suite of services, we have been making a difference in the lives of our employees, caregivers and patients for more than 30 years. We offer skilled nursing, personal care, respite care and behavioral care to individuals with chronic and acute illnesses and disabilities.
