Through advanced academics, Edinburg North High School serves as the epitome of what resilience, perseverance, and dedication can accomplish. The success of our brilliant students is credited to the foundation laid by our Cougar parents, who have embodied our legacy of excellence. Along with our parents, our success would not be attainable without our superb educators, unwavering support staff, and endless participation from our community members.

At Edinburg North, our students have "Multiple Pathways to Success" in which they are able to develop their talents in the classrooms, studios, courts, fields, and stage. Our Advanced Placement students take their education above and beyond, challenging themselves further than the local and state exams. When put on the scale of student success nationally and globally, they never fail to make their presence known. There is no doubt that these students have a golden future waiting for them once they leave the excellence of Edinburg North.

Happy Holidays to the entire ECISD community! Congratulations to these students and all of the ENHS students for their past, present, and future accomplishments.

Principal, George Espinoza
