

MILITARY HIGHWAY WATER SUPPLY CORPORATION

Request for Qualifications (RFQ) for Engineering Services Public Notice

Military Highway Water Supply Corporation is seeking to enter into an engineering services contract with a qualified Engineering Firm to assist in completing this project. Services are being solicited to assist the Corporation through Cameron County in its application preparation and project implementation of a Texas Development Block – Colonia Fund-Construction (CFC) Secondary Round contract, if awarded, to support water system improvements in the Military Highway Water Supply Corporation. The following outlines the request for proposals.

Scope of Work – The corporation is proposing to construct a booster pressure station to their water supply system. The new booster station will include a ground storage tank, booster pumps, booster housing, site piping and electrical controls.

Statement of Qualifications – The corporation is seeking to contract a qualified Engineering Firm, that has experience in the following areas.

- Municipal construction, including but not limited to, water works projects. List minimal 5 municipal projects within the past 2 years.
- Preparation of documents including plans and specifications for construction bid packets
- Funding applications and specifically TDA-CDBG funding
- Projects located in this general region of the state
- Registered and good standing as a Professional Engineer

Please submit your proposal of services and a statement of qualifications for the proposed services at the address below:

Consuelo De La Rosa, General Manager
Military Highway Water Supply Corporation
4000 US-281, Mercedes, TX 78570

Proposals shall be received by the Corporation no later than 4:00 P.M. on June 10, 2024. The Corporation reserves the right to negotiate with any and all individuals or firms that submit proposals, as per the Texas Professional Services Procurement Act.
