

Failed at Priorities

The Harris-Waltz cabal in their efforts to extend their form of socialism and finally communism to our country have and are evidencing failures, on purpose or through ignorance, in supporting the two most important pillars to our society.

The president and his or her administration have as their first priority the preservation of the union through their absolute control of our borders. That means proper immigration procedures as well as the necessary restraints at the border to see that no one enters for residency or work without permission and the following of proper procedures. It is obvious that neither President Joe Biden nor "Commie" Harris have fulfilled their obligations. And it appears that neither Harris nor Waltz will intend to do any difference.

So, the Democratic Party can be held responsible for the chaos we are now trying to live through. We have been invaded by a silent enemy that will rise to do us damage and we have no idea who they are, where they are or when the attacks will come. The untold and unknown millions who have entered our country come from many persuasions, but we have no way of sorting them out and handling them. We are being swamped!

Theodore Roosevelt's ideas on immigrants and being an American in 1907 need to be retold and remembered today:

"In the first place, we should insist that if the immigrant who comes here in good faith becomes an American and assimilates himself to us, he shall be treated on an exact equality with everyone else, for it is an outrage to discriminate against any such man because of creed, or birthplace, or origin. But this is predicated upon the person's becoming in every facet an American, and nothing but an American... There can be no divided allegiance here. Any man who says he is an American, but something else also, isn't an American at all. We have room for but one flag, the American flag... We have room for but one language here, and that is the English language... And we have room for but one sole loyalty and that is a loyalty to the American people."

We have certainly lost that spirit with all of the hyphenated names.

The second priority of the administration is the preservation of our free market economy based on capitalism. In spite of countless attempts, no other society has been able to produce a better system.

We hear now, "Vote for me, I will give you thousands more a year, a large down payment for a home, free health care, free phones, free anything you like!" When we swallow that line, we are voting against ourselves. There is nothing "FREE". And in the process those who pay the taxes will be forced to pick up the slack. They will tax the business or company you work for so much that they can't give you a raise, can't give you a bonus. The business or company won't be able to add to their production, expand or move you to a better job. Some companies will have to cut their payrolls and maybe lay you off. Retirement investments take a hit as stocks fall in a bear market. They kill the economy as money leaves the economy and goes to more government programs.

These socialists would kill competition for market share that gives you, the worker, the lowest prices on goods and services in the world. That's the secret that gives Americans a higher quality of life.

There is no middle class in socialism, They kill the job creators, the risk-takers, and companies must move off-shore to survive. Prices go through the roof on every thing you buy. We would continue the slide until we end up like Cuba and Venezuela.

Think about it! Capitalism multiplies wealth while socialism lasts only until we run, out of other people's money. Capitalism is a free market economy and found only in America. People here at every level of society live better than the same people any place in the world.

Think about our kids! What do you want for your kids? Do you suppose our success has anything to do with why people across the planet want to move here?

Vote your conscience. Vote for what is best for ALL of us!
