

Why I am running for County Commissioner

I'd like to take a moment to explain my entrance into the county commissioner's race as an Independent. In past elections I've voted for Republicans, Democrats, as well as Independents. I think quality candidates cross all party lines and consideration should be made on the individuals' merit.

I've always followed and have been interested in public service. Until my recent retirement I didn't think I'd be able to give this important work the attention it deserves. Now, in retirement, I can approach this new adventure with the same zeal and enthusiasm I do with my volunteer work at the high school and my church.

After the Primary election there seemed to be more bitterness than normal surrounding certain candidates. I would hope I can bring more light than heat into the public arena. There is important work to be done. My family has lived in Brown County since 1819 and I have no desire or inclination to fundamentally change our beautiful county. I would, however, like to improve on our wonderful assets. You can not advance our tourism/recreation business model without addressing sewers, safety, schools, connectivity and housing. By promoting

compatible economic development, we can go a long way on solving issues in these critical areas.

I do not intend to cloak myself in anonymity on any of the agenda centered websites currently online. I would, however, be delighted to answer any questions you might have. My email is gregtaggart74@gmail.com

I look forward to serving you as your county commissioner.

Greg Taggart

- Fortunate to have been born into the Taggart Family & to be able to reside in Brown County
- Son of Orion & Janet (Roberts) Taggart
