

More Business, Bigger Impact

With record cargo tonnage and strategic infrastructure investments, the Port of Brownsville is building a legacy of strength, creating jobs, attracting capital, and anchoring industrial development in the Rio Grande Valley.

INDUSTRIAL DEVELOPMENT

Food manufacturer Wista Inc., the first tenant of the Port of Brownsville’s 118-acre business park, is finalizing the layout for its \$20 million facilities, bringing more than 100 new jobs.

STRONGER ECONOMY

Forza Steel’s \$85 million manufacturing facility will generate over 600 good-paying jobs in the Rio Grande Valley. This investment, alongside major developments from Texan Cement, Ternium, and Rio Grande LNG contribute to the port’s emergence as a hub for energy, manufacturing, and construction.

GREATER DEPTHS

The Brazos Island Harbor Channel Improvement Project to deepen the ship channel to 52 feet, is transformative for the region. On track for completion in 2026, this project will enhance the port’s navigation, safety, and competitiveness.
